

## **Program outcomes**

Program outcomes of an economics degree include developing analytical, critical thinking, and problem-solving skills applicable to various fields. Students gain a strong foundation in economic theory, learn to analyse economic data and understand the functioning of both domestic and global economies. Furthermore, they acquire skills relevant for careers in finance, policy analysis, and research, as well as for pursuing higher education. Upon completion of this programme, a student will have the necessary skills to understand and analyse in a logical manner all major economic phenomena. A student will be able to analyse government policies and regulations, and demonstrate their significance. Knowing how an economy functions, and how decisions are made by consumers, producers, and regulators, the student will have the necessary skills to identify, analyse, and solve problems in a logical and efficient way. The programme provides the basic ingredients of economic theory and the opportunity to learn how to process and analyse economic data based on sound statistical principles, in order to arrive at economically meaningful conclusions. Students will: 1. Get an understanding of basic economic theory; 2. Learn the mathematical and statistical techniques necessary for a proper understanding of the discipline; 3. Get an introduction to real world economic issues and problems facing the country and the world; 4. Gain an understanding of proper policy responses to economic problems; 5. Get trained to collect primary data and learn sampling techniques; 6. Learn to use scientific empirical methods to arrive at conclusions about the validity of economic theories; 7. Get trained in the art of economic modelling. Given this diverse skill set and knowledge basket that the graduates have; the learning outcomes enable them to seek gainful employment and engagement in diverse sectors such as academics, public service, banking sectors, social work, government agencies and research organizations, human resource development, management, marketing and also the bureaucracy. Economics subject degree can lead to wide array of career paths in fields such as banking, finance, government research etc.
